

STORY KITS: Artist & Themed

The Mazza Museum has 22 Artist Story Kits to help teach students about picture book artists and their books. Kits include books, puppets or soft toys and media. Each kit includes a teacher notebook containing background information about the artist, a book list and ideas for relating lessons to these books. These resources will make it easy and fun to introduce art and literature by these renowned artists!

Also available are 33 Themed Story Kits. These contain books, activities and lesson plans complementing Common Core Standards for grades K-3.
